<https://abcservice.co.uk/computer/business-it-consultant/>

As Director of ABC TP Ltd, trading as ABC Service, I established the company in 2009 with a core mission to provide quality IT Support.

With over 15 years of experience within the IT industry, I have gained extensive insight into the diverse technological challenges businesses face. This experience allows me to offer strategic guidance across a wide range of areas, including network optimisation, security implementation, and overall IT infrastructure planning.

Given the current critical emphasis on business and data security, my consultancy focuses on assisting you in proactively identifying potential security risks and strategically evaluating your technology investments to ensure they align with your business objectives and drive success.
